

# Eucalyptus Radiata Essential Oil

## Product Details

**Botanical Name:** *Eucalyptus radiata*

**Country of Origin:** Australia

**Extraction Process:** Steam Distilled

**Part of the Plant Used:** Leaves

**Description:** Eucalyptus Radiata Essential Oil has a sweet, deep aroma. Eucalyptus is a tree that has many different species. Eucalyptus Radiata is one of the more commonly used oils because of its distinctive properties. This specific oil comes from the Forth River peppermint trees that are grown in Australia. When the leaves are crudely boiled down it can be used as an aromatherapy steam to relieve ailments such as respiratory distress. This led to the creation of the steam distilled oil we have and cherish today. Not only is it used in Aromatherapy, but is also used in many store bought products around the world, such as creams, lotions, rubs, and vapor decongestants.

**Common Uses & Benefits:** Eucalyptus Radiata Essential Oil has been traditionally applied to help respiratory tract infections, bronchitis, catarrh, sinusitis, rhinitis, colds, influenza, fever, asthma, rheumatism, muscular aches and pains, neuralgia, abdominal cramps, menstrual cramps, headaches, mental exhaustion, fatigue, insect stings and bites.

**Therapeutic Properties:** Analgesic, Anti-infectious, Anti-inflammatory, Antibacterial, Antimicrobial, Antiseptic, Antiviral, Calmative, Expectorant.

**Directions:** Recommended to properly blend in a carrier oil prior to topical applications. Do not apply to, or near, the face of young children or infants. Patch test before use in case of sensitivity.

### Blends Well With:

Basil, Lavender, Spearmint, Camphor, Peppermint, Tea Tree, Cajeput.

**Cautions:** Possible skin sensitivity. Keep out of reach of children. If pregnant or under a doctor's care, consult your physician.
